Ducks Unlimited, Inc., the leading wetland conservation non-profit organization, was founded in 1937 with a mission of protecting and restoring North America's wetlands. Our mission remains the same today. We offer cost-share opportunities for landowners to aid in restoration of wetlands and adjacent uplands. Cost-share is up to **100%** for those individuals willing to protect their wetlands in perpetuity via conservation easement.

If you are interested in selling your property containing wetlands, we have options for fee title purchase as part of our Revolving Habitat Program. Wetlands America Trust (i.e. Ducks Unlimited, Inc.) voluntarily pays all property taxes on all properties under its ownership.

Please contact John Denton with any inquiries at (308) 258-4682 or jdenton@ducks.org
